Working towards a Net-Zero City

The Park & Ride service forms part of the Leicester Buses Partnership of improvements over the next 8 years.

The aim is to bring about a transformative change in bus travel, that's **electric**, **frequent**, **reliable**, **easy** and **great value**.

Leicester park&ride

Our Park & Ride services offer a quick, easy and convenient way to travel into the city centre. The three Park & Ride sites are dotted round the edge of the city and have CCTV in operation.

Simply park up at one of the sites and hop onto the all-electric buses to the city centre which run every 15 minutes.

Travel time is between 10 and 25 minutes.

Board at any designated stop along the route.

Expanded routes to widen accessibility across the city.

Your Park & Ride service

These buses are fully electric, which means they are quieter, smoother and help keep the air across Leicester cleaner and fresher.

They also have free Wi-Fi on board to keep you connected and USB charging points to allow you to charge your phone or laptop whilst on the move.
